EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 12, 23, and 52 are allowable because the prior art of record does not disclose or reasonably suggest a first library for visual rendering and for generating client side markup and a plurality of event handlers to support a first set of visual controls, and a second library for at least one of recognition and/or audible prompting for supporting a second set of controls, where the set of controls is defined on an authoring page for a website. Applicants' Specification, Page 28, Line 22 to Page 31, Line 23: Figure 7, discloses libraries 300A and 300B, where library 300A includes methods for generating visual controls with client side markup and event handlers and library 300B includes markup information for performing recognition and/or audible prompting. Although libraries and event handlers are commonly known for computer programs that execute program code from dynamic linked libraries (DLL) and for Java, the prior art of record does not disclose or reasonably suggest two libraries, where a first library is directed to supporting a first set of visual controls and a second library is directed to supporting a second set of controls for recognition and/or audible prompting. Applicants' Specification, Page 2, Line 19, to Page 4, Line 22, discloses advantages for improving upon an architecture to provide speech recognition in a client/server environment by synchronizing related visual and aural pages and promoting re-use of elements.

Any comments considered necessary by Applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicants, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 53 to 56.

This application is in condition for allowance except for the presence of claims 53 to 56 directed to an invention non-elected without traverse. Accordingly, claims 53 to 56 have been cancelled. See MPEP §821.02.
